Description:

Now more than ever: Aldous Huxley's enduring "masterpiece ... one of the most prophetic dystopian works of the 20th century" (*Wall Street Journal*) must be read and understood by anyone concerned with preserving the human spirit in the face of our "brave new world"

Aldous Huxley's profoundly important classic of world literature, *Brave New World* is a searching vision of an unequal, technologically-advanced future where humans are genetically bred, socially indoctrinated, and pharmaceutically anesthetized to passively uphold an authoritarian ruling order--all at the cost of our freedom, full humanity, and perhaps also our souls. "A genius [who] who spent

his life decrying the onward march of the Machine" (*The New Yorker*), Huxley was a man of incomparable talents: equally an artist, a spiritual seeker, and one of history's keenest observers of human nature and civilization. *Brave New World*, his masterpiece, has enthralled and terrified millions of readers, and retains its urgent relevance to this day as both a warning to be heeded as we head into tomorrow and as thought-provoking, satisfying work of literature. Written in the shadow of the rise of fascism during the 1930s, *Brave New World* likewise speaks to a 21st-century world dominated by mass-entertainment, technology, medicine and pharmaceuticals, the arts of persuasion, and the hidden influence of elites.

"Aldous Huxley is the greatest 20th century writer in English." —*Chicago Tribune*
