## **Description:**

**Written and designed to help all types of learners become expert problem solvers.**

All general chemistry students face similar challenges, but they use their textbook differently to meet those challenges. Some read chapters from beginning to end, some consult the book as a reference, and some look to the book for problem-solving help. *Chemistry*, Fourth Edition supports all kind of learners, regardless of how they use the book, by helping them connect chemistry to their world, see that world from a

molecular point of view, and become expert problem solvers.
