## Description:

Admit it... you're not really happy with your current career track, are you? Do you find yourself routinely asking these questions:

Is this job fulfilling, or do I just do it for the paycheck?

Am I really climbing the "corporate ladder", or am I stuck on the same rung?

Why do I keep working for the same company but expect different results?

Whether you're unemployed, underemployed, or just generally dissatisfied with your current job, your gut says there must be something more in store for your career. Rest easy in knowing that you're in good company; nearly 70% of all Americans are dissatisfied with their current employment situation. Luckily, you live in one of the greatest times of opportunity our world has ever known. Thanks to the power of the Internet, the dream of owning and operating your own business is closer than you can imagine. As the name implies, your new business can be operated from the comfort of home (in sweatpants, of course). Over the past five years, I've used the principles found in this book to start and grow a highly profitable home-based consulting firm. By leveraging the power of the Internet, some free web-based tools, and your own creativity, you too can grow a real business that you can be proud of.

By listening to this audiobook, you'll learn:

- Why salary is a dead-end proposition for your career.
- What the changing economy (and technology) means for your future.
- How you can leverage the changes in technology to your long-term advantage.
- Why your virtual resume is so much more important than any paper resume.
- Dozens of fr...
