#### Description:

*Godless* is the most explosive book yet from #1 *New York Times* best-selling author Ann Coulter. In this completely original and thoroughly controversial work, Coulter writes, "Liberals love to boast that they are not 'religious', which is what one would expect to hear from the state-sanctioned religion. Of course liberalism is a religion. It has its own cosmology, its own miracles, its own beliefs in the supernatural, its own churches, its own high priests, its own saints, its own total worldview, and its own explanation of the existence of the universe. In other words, liberalism contains all the attributes of what is generally known as 'religion'."
